Windows
macOS
Linux
Build from Source
Click here to download the latest (2.51.2) x64 version of Git for Windows. This is the most recent maintained build. It was released 9 days ago, on 2025-10-28.
Other Git for Windows downloads
Standalone Installer
Git for Windows/x64 Setup.
Git for Windows/ARM64 Setup.
Portable ("thumbdrive edition")
Git for Windows/x64 Portable.
Git for Windows/ARM64 Portable.
Using winget tool
Install winget tool if you don't already have it, then type this command in command prompt or Powershell.
winget install --id Git.Git -e --source winget
The current source code release is version 2.51.2. If you want the newer version, you can build it from the source code.
Now What?
Now that you have downloaded Git, it's time to start using it.

Git 2.51.2 Setup
Adjusting the name of the initial branch in new repositories
What would you like Git to name the initial branch after "git init"?
Let Git decide
Let Git use its default branch name (currently: "master") for the initial branch in newly created repositories.
Override the default branch name for new repositories
NEW! Many teams already renamed their default branches; common choices are "main", "trunk" and "development". Specify the name "git init" should use for the initial branch:
main
This setting does not affect existing repositories.

Git 2.51.2 Setup
Choosing the SSH executable
Which Secure Shell client program would you like Git to use?
Use bundled OpenSSH
This uses ssh.exe that comes with Git.
Use external OpenSSH
NEW! This uses an external ssh.exe. Git will not install its own OpenSSH (and related) binaries but use them as found on the PATH.

Configuring extra options
Which features would you like to enable?
Enable file system caching
File system data will be read in bulk and cached in memory for certain operations ("core.fscache" is set to "true"). This provides a significant performance boost.
Enable symbolic links
Enable symbolic links (requires the SeCreateSymbolicLink permission). Please note that existing repositories are unaffected by this setting.
